

Pour convertir en ligne vos fichiers au format mp3 en 56 bit rate :

<http://audio.online-convert.com/convert-to-mp3>

1)

The screenshot shows the 'Convert audio to MP3' page on the website. The page has a green header with the logo and navigation links. A sidebar on the left lists various conversion options. The main content area includes a 'Download' button, a text box for uploading audio files, and a section for 'Optional settings' where the audio bitrate is set to 128 kbps. A 'Convert file' button is at the bottom. Red arrows point to the 'Examinar...' button with the text 'Cargar aquí vuestro fichero', to the bitrate dropdown with 'Poner en 56', and to the 'Convert file' button with 'Lanzar aquí la conversión'.

2)

The screenshot shows the upload progress bar. It displays 'Submitting data...' and 'Your file is currently uploading.' with a progress bar at 10%. Other details include 'Total file size: 5.47 MB', 'Upload rate: 76.1 KB/s', and 'Time left: 00:01:04'. A red arrow points to the progress bar with the text 'Esperar...'.

3)

The screenshot shows a 'Descarga de archivos' dialog box asking '¿Desea abrir o guardar este archivo?'. The file name is 'Gonza_lez_Jordi_tp3_converted.mp3', the type is 'Sonido en formato MP3, 445 KB', and it is from 'www11.online-convert.com'. There are 'Abrir', 'Guardar', and 'Cancelar' buttons. A red arrow points to the 'Guardar' button with the text 'y guardar el fichero en vuestro ordenador'.

Et voilà !.....
